

# FUNKY 15 & 17

SINGLE SURFACE HANG GLIDER

With the introduction of the Funky we are proud to present the new generation of fun-to-fly hang gliders.

The Funky is intended for pilots who are looking for a glider with very forgiving flying characteristics. It features the latest and safest in glider design at a level which is currently unsurpassed in the industry.

During the development of the Funky we utilized the extensive know-how that we have gained over the years from our high performance intermediate Spyder.

A newly developed batten profile ensures state of the art handling. The DHV-1 rating makes the glider equally suitable for beginners or experienced pilots looking for simple flying characteristics.

The Funky comes with the superior build quality and attention to detail that you associate with Seedwings Europe. The sail is made by German company Pause Segel renowned for its indisputable sail work.

The Funky 15 can be ordered with an optional small A-frame making the glider even more suitable for the smaller pilot.

With a maximum total weight of 148 kg the Funky 17 is perfect for use with a motorized harness.
